Sorry, but it's two days that I'm trying to convert files in .aiff or in .ram to mp3 and the dialog windows always says to me to try again... I've a Mac and the Os X 3.9... What Have I to do???

Thanks, steve

hello,
we have noticed problems occuring with some AIFF files.
we're looking how to fix that.

again

we have fixed the conversion for AIFF IMA4 sound files that couldn't pass thru media convert.

try again, it should work :d
